

2016 “Cheap List”

Part I: Sale Catalogues

It is a simple fact that many sale catalogues that contain good, solid information aren't worth much money on the secondary market. Collectors and researchers continue to need them, though the monetary return makes it difficult for booksellers to bother with them. As a result, they tend to pile up.

The following is a basic listing of numismatic sale catalogues available for immediate purchase at the price indicated. These have not been exhaustively catalogued, with just the basic info noted. Condition should be assumed to be average used: perfectly adequate for use, but not necessarily fine (though many are indeed fine). Items are complete unless indicated otherwise.

How It Works

Items are available for purchase at the prices listed from **Sunday, August 21** through **Saturday, September 3**. Orders totalling **over \$100** may take an additional **10% OFF!**

Starting **Sunday, September 4** through **Sunday, September 11** prices of any remaining items will be **50% OFF** regardless of the size of order (no further discount given for larger orders). After that date all remaining items will be available for free in the dumpster behind our office.

SHIPPING COSTS: Domestic USPS Media Mail postage is \$3 for the first item and \$1 per item thereafter. International postage will be billed at cost. Shipping costs are not subject to discounts.

ORDERING: Please email your list of items to **orders@numislit.com** and wait for our confirmation that your items are in stock before sending payment. New customers must pay by PayPal to **df@numislit.com**.

We hope you find some items of interest. Of some of these we have duplicate copies; of some of them we don't. So don't delay.
